

Rusty Penetrant

A fast working multi-purpose rust penetrant with graphite particles to displace moisture.

Features & Benefits

- Silicone free – bodyshop safe
- Fast acting rust release – saves time
- Contains graphite - leaves lubricating film to reduce chances of “bolt shear”
- Breaks rust bond - parts can be re-used
- Handy aerosol application - no mess or waste when transferring product from bulk containers to spray bottles

P/N	Product	S/C	Packaging
83726	Rusty Penetrant	SRP	400 ml aerosol

Application

Rusty Penetrant has been specially formulated to provide a very fast working rust penetrant - once penetrated it leaves a lubricating film behind.

Rusty Penetrant is silicone free and safe to use in bodyshops. It is particularly good at freeing-off exhaust nuts, manifold nuts, suspension components and any other components where moisture and / or heat have combined to seize a nut or bolt.

Rusty Penetrant is also extremely useful when used alongside Anti Seize Grease for difficult to access areas such as exhaust assembly bolts. Use Rusty Penetrant to get the nut moving, then spray Anti Seize Grease onto exposed section of rusted thread to ensure that it does not shear.

Rusty Penetrant also fulfils the demand in the agricultural market sector where machinery can be left idle for long periods of time in extreme conditions.

Instructions

1. Shake well before use.
2. Remove excess corrosion from parts and apply Rusty Penetrant liberally.
3. Allow to penetrate then dis-assemble parts.

Technical Information

Base:	Graphite
Consistency:	Low viscosity liquid
Colour:	Black
Shelf life:	30 months
Custom tariff code:	3403 1910
VOC:	643 g/l

Specific gravity:	0.728 g/ml 20°C
Temp resistance:	
Continuous:	Not determined
Temporary:	Not determined
