

# Lacquer Repair Spray

A 1k aerosol for dissolving the edges of 2k paints to give an invisible blend.

Part N°: 84125 (LRS) - 500ml aerosol

## Features

- Dissolves clear coat masking edges
- Gives a soft edge to repairs
- UV stable
- Suitable for MS and HS clear coats
- Ready to use

## Applications

- Lacquer Repair Spray is a fast, simple and accurate way to dissolve the edges of 2K Clear coating repairs.
- Lacquer Repair Spray increases efficiency of the blending process to give an invisible blend. Using this spot repair blender confines repairs to a single panel giving a soft edge to every repair.
- Ideal for use with both MS and HS Clear coatings and is 100% UV stable.

## Benefits

- No need for 2k fading
- Time saving
- High Quality repair
- Reduces inventory
- Saves time

## Instructions

- Once the clear coating has been applied to the satisfaction of the painter, apply a light mist coat of Lacquer Repair Spray over the blend area holding the aerosol at 25cm from the panel.
- The blending process is best undertaken in two rapid, light passes of the aerosol
- The blend edge will melt into the original paintwork and requires little or no processing once the clear coating has cured
- After application follow the clear coating manufacturer's instructions for flash off and air/force dry.
