## Application

SF100 is a clear silicone based lubricating film that is ideal for protecting and enhancing interior and exterior plastic and rubber parts.

It will enhance convertible roofs and protect electrical components against moisture.

SF100 is also ideal as a light lubricant for items such as locks and hinges.

To preventing freezing and sticking of door rubbers, apply SF100 directly onto the door rubber.

## Instructions

1. Shake can well before use
2. Spray directly on to the surface requiring lubrication.
3. If using as a protective coating, spray directly onto the surface and wipe with a clean dry cloth to obtain the required finish.
4. If using to remove moisture from electrical systems, please ensure system is turned off before spraying, and allow to flash off before turning system on.
