

Petrol One Shot 2

Petrol One Shot 2 is a specific and effective short term rapid cleaner to compliment the long term fuel treatment of Fuel Guard 2. *NEW improved formulation – Euro V Compliant*

Part N°: 84594 – POS II 250ml

Features & Benefits

- Specific Euro 5 Compliant Additive tested under Wasserboxer Intake Valve Stick Test Constraints
- Increased Levels of Dispersant & Detergency Additives
- Improved Carbon & Ash Removal & Dispersion
- Improved water absorption capability
- Ultra Low Aromatic Hydrocarbon Content – Reduced NOx Emissions
- High Flash Point – Not Classified as Flammable

Applications

New EU Directive 2007/715/EC has resulted in Euro 5 Emission Standards with effect September 2009. Petrol One Shot 2 has been reformulated using an additive that is compliant with Wasserboxer Intake Valve Stick Test Constraints. (CEC F-16-T-96). POS can also be used with bio ethanol fuel systems as per EU Directive 2001/77/EC: POS will take up any free water in the system due to water contamination caused by water/ethanol phase separation.

Petrol One Shot 2 has improved water absorption capabilities to quickly disperse water and carry it through the combustion system.

Petrol One Shot 2 is a rapid and effective cleaner for all parts of the fuel supply and combustion systems to restore lost cylinder compressions and engine performance and efficiency.

It dissolves and removes harmful gums, tars, varnishes, lacquers, corrosion and moisture from inside the fuel tank, fuel lines, fuel pumps, fuel rails, intake systems, injectors and combustion chambers. The ashless dispersant and detergent quickly reduces harmful exhaust emissions and restores lost fuel economy.

Petrol One Shot 2 I has been independently tested to ensure it is compatible with and does not harm seals, gaskets, elastomers, plastics, catalytic convertors and any other materials used in the manufacture of motor vehicle fuel and combustion systems.

Instructions

For best results, apply complete bottle to fuel tank containing not more than 15 litres of fuel. Run engine until tank would normally be topped up.

For a fast injector and valve clean up, apply complete bottle to tank containing not more than 15 litres of fuel. Run engine until fuel tank would normally be topped up.

For preventive maintenance routine, add a complete bottle to the full fuel tank.

Maintain the engine and fuel system performance with long term treatment using Fuel Guard2.

Technical Information

Part N°:	84594
Description:	Petrol One Shot 2
Shelf Life:	18 months
Size:	250ml
Stock Code:	POS2
Customs Tariff Code:	3811 9000 90
SDS:	Yes
Consistency:	Brown liquid
Application:	Add to fuel tank
Odour:	Low odour
Flash Point:	65°C
Specific Gravity:	0.830g/ml
VOC:	730g/l

SDS available on www.kenteurope.com
