

# Rusty Shock Spray

A multi purpose rust penetrant with fast freezing abilities.

Part N°: 84599 - 400ml aerosol

## Features

- Graphite based
- Freezes down to -40°C
- First class penetration abilities
- Works on rusted and seized components
- Silicone free

## Benefits

- Excellent lubricating abilities
- Shocks components into releasing their bond
- Penetrates into the component to deliver lubricant coating
- Multi use product
- Bodyshop safe

## Applications

Rusty Shock Spray can be used for all rusted or seized nuts, bolts, screws etc. It is particularly effective on exhaust mountings, manifold studs and nuts, suspension mountings or other fasteners where exposure to weather or water promotes corrosion.

Rusty shock spray works by freezing the component which causes contraction and this act then “breaks” the bond that has been preventing the disassembly of the item.

To use, spray directly on to the component requiring disassembly from approx 3-5 cms. Allow for Rusty to penetrate and reduce the component temperature before attempting to undo.

If required, apply more Rusty.

## Technical Information

<b>Part number:</b>	84599	<b>Replacing:</b>	n/a
<b>Stock Code:</b>	RSS	<b>weight:</b>	335g
<b>Description:</b>	Rusty Shock	<b>Customs Tariff code:</b>	3403 99 10
<b>Shelf life:</b>	12 mths	<b>MSDS:</b>	yes
<b>Selling Unit:</b>	each	<b>VOC:</b>	566g/l
<b>Volume</b>	400ml	<b>Colour:</b>	Black/dark grey liquid
<b>Hazard Info:</b>	irritant and extremely flammable
