Applications

Preferred where tape must conform and follow contours without wrinkling or tearing.

Kent Orange Fine Line tape is used when flake resistance and removal without adhesive transfer is important.

Masking tape for multi colour and design paint jobs. Designed for long straight lines whilst remaining flexible.

High Temperature Fine Line Tape uses a thermally stabilized PVC backing with a rubber based pressure sensitive adhesive.

This PVC tape will perform in temperatures up to 150°C for at least 30 minutes and leave a sharp, clean separation line. Kent Orange Fine Line tape adheres to a wide variety of surfaces. It follows contours and remains in place as long as necessary and leaves no residue upon removal.

Instructions

- Ensure surfaces to be masked are clean and free of dust.

- Apply tape to area to be masked following the contours required.

- Apply pressure to the surface of the tape on bends and corners to ensure product remains flat.

- Mask the remainder of the area

- Paint the vehicle.

- Once the paint is dry remove all the masking materials.

- Once the tape is removed, inspect the edges and polish if necessary.
