

Universal Back Up Pad

Universal Back-Up Pads for use on Roto-Orbital Pneumatic or Electric Sanders. The flat upper profile makes it suitable for use with all machines; in case of more distance from the suction cup, a fittings kit is available separately. Supplied as 12mm Standard or 10mm Rigid. 15 hole suction system makes it highly compatible with most systems

Universal Back-Up Pads

12 thickness	150mm	A1235
10 thickness	150mm	A1236
Bolts & Fittings		A1234

Features

- Durable Construction
- Separate Fittings Kit
- Ultra-Fine Special Grip Velcro
- 15 hole style
- Balanced Air Flow

Applications

The Pads are suitable for use with all pneumatic or electric sanding machines. A fittings kit means that distance between pad and suction cup can be varied for perfect installation. The pads are robust and long-life and the choice of rigid or standard covers the sanding of flat or profiles panels.

The Velcro grip is suitable for use with either hook-it or stick-it type abrasive systems.

Benefits

- Suitable for all industries, even in intensive use.
- Only required for specific usage – saves waste
- Suitable for either Hook-It or Stick-It systems
- Suits most commonly used extraction systems
- Excellent suction on edge or in middle, any orientation

Instructions

1. Select the required fixings, if necessary
2. Fix the backing pad to the Sander
3. Apply the Abrasive Disc to the pad, ensuring alignment of extraction holes and start the machine.
4. If required use an interface pad in between back up pad and disc. Align suction holes.
5. When the sanding disc has reached the end of its life, remove and replace with a new disc

Technical Information

Part number:	A1235 00 12 thickness Pad A1236 00 10 thickness Pad A1234 00 Bolts & Fittings	Replacing:	A0519; A0568; A0567
Description:	Universal Back-Up Pad	weight:	
Shelf life:	N/A	Stock code:	BUP12; BUP10; BUPF
Selling Unit:	Per Box	Customs Tariff code:	10021210
Hazard Info:	N/A	MSDS:	No
Box Size	1 unit per Box
