

Primer Filler Mixing Lids

Tool for pouring and mixing primer and coating materials.

Features & Benefits

- Easy and clean pouring - reduces cleaning effort and saves time
- Continuous mixing of the coating material - consistent quality and viscosity, no sedimentation
- Reusable and low-wear - reduces plastic waste and costs
- Secure closure - protects the coating material from contamination, light, moisture and air

Application

The KENT Primer Filler Mixing Lid guarantees careful mixing as well as clean and fast pouring of your coating materials from all common 3.5L (3.75L) cans. Protect your coating materials from external influences and ensure consistent quality of the materials used. Its ergonomic handle and the pointed pouring edge ensure accurate and pleasant mixing. Its sturdy and durable construction makes the Primer Filler Mixing Lid reusable, reducing your costs and waste.

Instructions

1. Adjust the fork height and lock it, tightening the setscrew with the allen spanner.
2. To close on the can, push in a crossed way and turn the pawls at the same time.
3. Clean any leakage after each use.

Additional Information

Hints & Tips

Clean the closing surfaces, the dispensing area and the air vent at least every month.

Carefully clean the parts in contact with the paint at each change of the can, checking their good condition. It is recommended to replace the covers at least every 2 years.

Technical Information

General Info:

Consistency:	Solid
Base material:	plastic/ metal
Accessories:	Tool
Pieces per unit:	4

In addition to the individual parts, the product also includes a tool for assembly, which is carried out by the customer.
