

Spray Wax Zero

A silicone free premium detailing polish based on naturally occurring waxes.

Features & Benefits

- Silicone free - 100% paintshop safe
- Advanced wax technology - improves the colour depth of the lacquer surfaces and brings a mirror-like shine
- Highly water and dirt resistant - long lasting surface protection and preservation
- Quick and easy - spray on, buff, ready sealed
- Versatile use - can be used around the vehicle, leaves no streaks or white residue
- and eliminates the need for masking

P/N	Product	S/C	Packaging
86837	Spray Wax Zero Yellow / Transparent	SWSF	500 ml Aerosol

Application

A silicone-free, high-yield spray wax for use on all hard surfaces such as paint, glass, plastic and wood without leaving streaks or white residue.

Its special surface adhesion provides long-lasting protection against external influences and has excellent rain and dirt repellency. The waxes used also guarantee the highest gloss properties and ensure extreme gliding properties and suppleness of the surface. Its silicone-free nature also makes it the perfect companion in body shops after paint work, Smart Repair and for general paint care before delivery.

Instructions

1. Ensure surface is clean and dry.
2. Shake well before use.
3. Hold upright and spray from a distance of 20-30cm.
4. Immediately polish to a high gloss with a soft, clean cloth in overlapping circular motions.

Additional Information

Hints & Tips

Do not apply to hot surfaces as this can cause the polish to dry too quickly and lead to streaking. For particularly dirty vehicles, we recommend the use of KENT Smoother or Smoother Sponge for cleaning the paint during the car wash.

Technical Information

General info:

Consistency:	Aerosol
Base material:	An aqueous emulsion of carnauba wax, bees wax, petroleum waxes
Colour:	Yellow / Transparent
Odour:	characteristic
Shelf Life:	(months): 24
Customs Tariff Code:	3405200000
VOC:	357 g/l
Pieces per unit:	1

Application temperature (min.): 10 ° C

Application temperature (max.): 25 ° C

Don't use inside the spray booth. Don't use on any surface where slip / low friction would cause a hazard.
Don't use on windscreens.
