

Performance Abrasive 2

Performance Abrasive 2 is specially formulated with extended running time to enable the operator to achieve enhanced cutting action with no drying out, delivering a high gloss final finish.

Features & Benefits

- No water necessary/non spray – no mess: easy application
- Applicable for all automotive paint systems – bodyshop / paint shop safe
- Polish with high cutting action - Removes scratches finer from P1500
- Abrasive contains lubricants – easier running of pad; no greasy film and extends life of foam mop
- Especially formulated for professional market – time saving products
- Even in case of strong weathering – excellent finish and deep gloss

P/N	Product	S/C	Packaging
86605	Performance Abrasive 2	PA2	1kg bottle

Application

Superior Performance: Specially formulated with extended running time to enable the operator to achieve enhanced cutting action with no drying out, to deliver a unique final depth of gloss finish

Optimum scratch removal: Extended running time makes Performance Abrasive 2 the general purpose compound choice for use with either white Foam or Lambswool Pads [where increased scratch removal is required].

New lubricant system: Giving a smoother feel to the extended running time of the pad: either Foam or Lambswool.

Non-Cosmetic: Removes scratches – does not hide imperfections with cosmetic oil, to avoid costly re-works.

For use on: All automotive paint systems including water based, HS high solid, MS, infrared and accelerator cured paints ,single component and 2-pack, acrylic, cellulose, synthetic and OEM finishes including Nano Ceramic Clear Coats.

Instructions

1. Apply KENT Performance Abrasive 2 in small quantities to paint surfaces (use minimum amount to work required area).
2. Work the surface applying medium pressure until the scratches and imperfections are removed.
3. Reduce pressure as the mop starts to move freely to allow polishing action to take place.
4. After compounding remove any residue and buff surface with clean soft cloth.

N.B.: Do not over apply or use excessive product.

On soft or sensitive paint, or where heat build-up may be a problem, the addition of water mist helps avoid any friction burn, particularly with **new pads** it may assist in the polishing process. However, avoid unnecessary / excessive water. When a new pad is activated with water no additional water needs to be used once the pad has been impregnated with product.

Technical Information

General info:

Base:	Emulsion base with inert inorganic micro-abrasives, solvents and surfactants
Appearance / colour:	White Paste
Odour:	Coconut
Specific gravity:	1.185 g/ml
pH:	10.5 +/- 0.5
Solubility in water:	Miscible in water
Application temp:	Ambient
VOC:	99.5 g/l
Shelf life:	24 months
Custom tariff code:	3405 3000

Additional Info

For swirl & hologram removal it is essential to keep polishing pads clean, and separate from compounding pads. Any dust or compounding residue must be washed off vehicle before polishing.

- 1 KENT Performance Abrasive 2 +  Hard Pad
- 2 KENT Performance Compound 2 +  Medium Pad
- 3 KENT Nano Performance Polish +  Soft Pad
